

~~TOP SECRET~~

#27

25X1A9a

Mn.  called on 12 August:

The following changes will be made to CSB 00015

Recommendation #4. Comments will include statement that USCIB will study the problem of COMSEC and that appropriate information along these lines will be furnished by NSA.

Recommendation #9. Comments on line 4 changed to read ☒  
'Progress is BEING MADE AND the problem...'

Recommendation #10. Comment will be changed to read  
USCIB considers the need for avoiding duplication and providing flexibility is recognized by those govt agencies having ~~responsible~~ for planning and policy guidance in this field and that no special authority to study the problem is required.

~~A more accurate~~ I agreed to the above changes.

CSB 00015 will be reissued with a more complete wording

25X1A9a of the above changes included.
